

ERANDA JAYAWARDANA

Software Engineering Intern

eraajayy25@gmail.com | +94 77 215 4261 | www.linkedin.com/in/eraa-jayy | Kegalle

PROFILE

Motivated Computer Science undergraduate with a strong foundation in Software Engineering, web application development, and problem-solving. Skilled in developing responsive and user-focused applications using Java, React, Next.js, Tailwind CSS, Node.js, MySQL, and MongoDB. Familiar with Software Development Life Cycle, Agile methodologies, GitHub collaboration, and database management concepts. Possesses strong analytical, teamwork, and communication skills with the ability to learn new technologies quickly and contribute effectively in collaborative development environments.

EDUCATION

Bachelor of Computer Science (Undergraduate)

University of Ruhuna

Current GPA: 2.54/4.00

2023 – 2026

Matara, Sri Lanka

GCE Advanced Level - Mathematics stream

Kegalu Vidyalyaya - Advanced Level

Z Score - 1.4509

2021

PROJECT EXPERIENCE

Personal Healthcare Monitoring System (Healthify)

Group Project

- Healthify is a web-based system for securely managing medical records, tracking health data, and connecting patients with doctors on a single platform.
- Contributed to the development of reminder pages, quick links, and doctor profile sections for Healthify.
- Contributed to requirements gathering and analysis for a secure healthcare platform connecting patients and doctors.
- Collaborated with stakeholders to define system needs, user workflows, and functional requirements.
- Supported Agile project coordination, including sprint planning, backlog refinement, and progress tracking using Trello.

Police Information Management System

Group Project

- A Police Management System is a centralized platform that streamlines law enforcement operations such as record management, firearm requests and report handling, and data entry.
- Contributed to developing desktop applications using C# and .NET, ensuring alignment with business and functional requirements.
- Assisted in requirements gathering, analysis, and documentation to maintain clarity and stakeholder alignment.
- Participated in system design discussions, translating business needs into technical solutions and system workflows.
- Supported Agile project activities, including planning, task tracking, and team coordination for timely delivery.

Text-to-Speech Converter

Individual Project

- A web-based tool that converts text into natural-sounding speech, enhancing accessibility and providing an interactive user experience.
- Developed web applications using HTML, CSS, and JavaScript, ensuring cross-browser compatibility.
- Implemented real-time voice synthesis with Web Speech API to enhance accessibility and interactivity.
- Designed responsive and user-friendly interfaces following UI/UX best practices.

TECHNICAL SKILLS

Programming Languages

Java, C, JavaScript, PHP

Technologies

React.js, Next.js, Tailwind CSS, Node.js

Databases

MySQL, MongoDB

Tools & Platforms

GitHub, Figma, Trello, Jira , Microsoft Office Suite (Excel, Word, PowerPoint)

Methodologies

Agile, Scrum, SDLC
